PROFILE

I am a self-driven, enthusiastic and creative person with an excellent solid academic background. My challenge seeking and critical thinking ability have made me an artistic graphic designer, talented web developer and proficient programmer inspired by state-of-the-art technologies. With my well-proven hands-on experiences in leadership and management skills, I can be both a confident individual and an effective team player adhering to deadlines. Currently, I am looking for a challenging opportunity to gain experience in the expertise environment to make a progressive excellent future career.
